

Add-A-Leaf Info.

If you plan to mount a winch, install heavier bumpers, or do a lot of towing and hauling, you may want to consider installing Add-A-Leaves on your vehicle. Add-A-Leaves will increase your payload capacity by 250 lbs to

500 lbs and give you additional height. If your stock springs are sagging you may want to use an Add-A-Leaf to bring your truck back up until you can afford

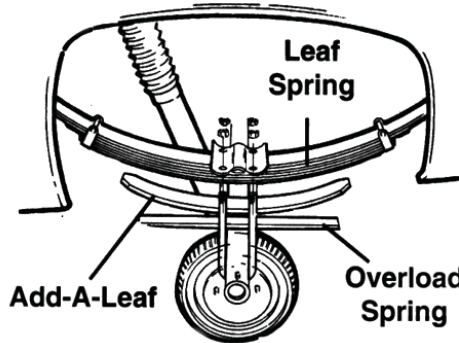

replacement springs. These Add-A-Leaves can be easily installed with a good set of basic hand tools—without removing the stock springs. **All of the pricing below is for a full add-a-leaf kit, which comes with 2 add-a-leaves and longer center pin bolts.**

Short Add-A-Leaves

Gives your truck a heavier load capacity, with a firmer ride.

Long Add-A-Leaves

Gives your truck less load capacity but a little firmer ride than stock.

Add-A-Leaves

GM Front Add-A-Leaves

Year	Model	2WD 4WD	Lift	Manuf. / Part #	Length	Pricing
