Oasis Differential Covers

Oasis Differential Covers provide your hard working service and/or recreational vehicle with increased lubrication and cooling capacity. Oasis Differential Covers set your vehicle apart both functionally and aesthetically. They've become the leader in functional designer covers, cast in A356 aluminum heat treated to T5 - aircraft quality standards! These diff covers give increased oil capacity and allows for oil changes to be made without removing the cover. Magnetic drain plugs are provided to catch worn gear materials, which enables fluid to keep its integrity, hardware is also provided so installation can be done worry free. All Oasis Differential Covers are covered by a limited lifetime warranty. Show off your rear end with an Oasis Differential Cover. *(Note: Actual part may be shaped differential than one shown)*

Features

- Low pressure casting (today's technology)
- Heavy Duty Covers
- Longer life of your vehicle
- Larger oil capacity
- Increased lubrication
- Runs cooler
- Oil changes without removing the cover

PML Diff Covers

PML designs differential covers for trucks, SUVs, motor homes, performance, racing, off road driving, and everyone in search of extra capacity differential covers.

- Increased oil capacity for cooler temperatures
- Sand-cast aluminum with raised fins
- Thick wall construction to add strength to the differential housing
- Thick gasket flange will not bend when bolts are tightened
- Machined gasket surface for secure seal using RTV or factory reuseable gasket
- Oil changes without removing the cover
- All hardware provided, including magnetic drain plug
- Available in as-cast aluminum, black powder coated, and polished finishes
