Ladder Bars/ Traction Bars

Ladder bars are to help eliminate "wheel-hop" or shudder that is a common problem on lifted vehicles. Rize Ladder bars are clean, functional, and visually appealing. They're full floating and fully adjustable. This is an easy to install, completely bolt-on ladder bar that requires no welding. It eliminates axle wrap and is made out of fully boxed and gusseted 3/16" A36 Steel. All hardware and heim joints are included.

05-06	Ford Super Duty CC Short Bed	4WD	RIZ 440-300-022	
05-06	Ford Super Duty CC Long Bed	4WD	RIZ 440-300-320	

Ladder Bars/ Traction Bars

This System is designed to help eliminate that nasty "wheel-hop" or shudder that is a common problem on lifted vehicles, especially with larger, higher traction tires. The main bodies of the arms are formed from one piece of 304 Stainless Steel or 14-gauge mild steel utilizing a unique manufacturing process to create a very strong and virtually seamless construction. The Stainless Steel arms come fully polished, and the mild steel units are powder coated "Gator" Black to provide years of corrosion resistance. These arms are sold "universal" in pairs by length, and vehicle specific mounting hardware is sold separately to complete the installation.
