**2025 TOYOTA 4RUNNER
3" SST LIFT KIT**

PN: 69-55300

The all-new 2025 Toyota 4Runner is already making waves with adventure seekers, and ReadyLIFT is here to take it to the next level! Our brand-new 3" SST Lift Kit (69-55300) is engineered to give your 4Runner the ground clearance, stance, and capability you demand—without sacrificing that legendary factory ride and handling.

This isn't just a lift—it's a performance suspension upgrade. Building on the success of our industry-leading SST kits, the 69-55300 3" SST Lift Kit delivers premium-quality components designed specifically for 6th Generation 2025 4Runners equipped with factory rear coil springs.

NEXT-LEVEL PERFORMANCE FEATURES:

- 3" front lift with 2" rear coil spring spacers for an aesthetically level stance.
- Billet Aluminum front strut spacers + fabricated heavy-duty steel powder-coated rear coil spring spacers for durability and strength.
- Updated tubular upper control arms with corrected ball joint pivot angles for enhanced suspension geometry.
- Precision-engineered differential drop components maintain optimal CV angles and allow for over 3" of down travel—keeping your tires planted on rugged terrain.
- Rear shock extensions preserve factory shocks while maximizing travel.

BOLT-ON SIMPLICITY - NO CUTTING, BIGGER TIRES, NO HASSLE

- Up to 285/75R17 on an 8" wide +35 offset wheel (no trimming)
- Up to 295/55R20 on an 8.5" wide +35 offset wheel (no trimming)
- 315/70R17 with minor trimming
- 35X12.50R17 with minor trimming
- No welding or cutting required—just a straightforward, bolt-on installation.
- Factory ride quality maintained for a smooth, comfortable drive on and off the road.

Whether you're tackling off-road trails or just want to stand out on the streets, the ReadyLIFT 3" SST Lift Kit gives your 2025 4Runner the clearance, stance, and performance to make every drive an adventure.

Don't just lift it. ReadyLIFT it!
