

## Set # 2-4107

©2000 Energy Suspension. All rights reserved.  
May not be reproduced, in any form, or by any means,  
without the written consent of Energy Suspension.

### Removal

**Spray all nuts to be removed generously with your favorite rust buster.**

**Note:** When disassembling, note the quantity and positions of any shims that may have been inserted for body alignment. These shims will have to be reused to insure proper body alignment.

**Remember:** Only raise body high enough to remove & replace mounts. Always watch the fan shroud for sufficient clearance when raising the body. When jacking the body use a long enough 2X4 or 4X4 for maximum support. Never put jack directly on body panels.

Install mounts one side at a time with bolts on other side loosened only.

**Retorque to factory specs.**

# ENERGY SUSPENSION®

1131 VIA CALLEJON, SAN CLEMENTE, CA 92673

**Must reuse factory hardware.**

Position 1,5-6

- 1 Body
  - 2 Factory washer sleeve
